EXPERIENCE

AUGUST 2026 - CURRENT

Technical Assistant (The Afubia Group)

Key responsibilities:

Managing digital administration workflows by processing and scanning official documents. Handling logistics and ensuring the secure delivery of company products to clients. Serving as a primary communication link to relay operational feedback directly to the Managing Director. Monitoring on-site workers to ensure productivity, safety, and compliance with company standards.

EDUCATION

NIIT (National Institute for Information and Technology)

Software Engineering (Bachelor of Science)

FEBRUARY 2025 - CURRENT

- **Key Coursework:** Web Development, Algorithms, System Analysis
- **Core Focus:** Developing foundational skills in software architecture and modern coding practices

ACADEMIC PROJECTS

Portfolio Website (chukwuamakanwachukwu.com)

- Designed, coded, and deployed a responsive personal website using **HTML, CSS, JavaScript, and Firebase**
- Structured interactive visual layers to demonstrate foundational web development concepts

Anime Hero Quiz Application (mhafanquiz.chukwuamakanwachukwu.com)

- Developed an interactive quiz themed around '**My Hero Academia**' (i.e. **A fan-made quiz**) using **HTML, CSS, JavaScript, and Firebase**
- Implemented dynamic question rendering, scoring logic, and responsive design for engaging user experience
- Demonstrated ability to combine entertainment concepts with technical execution

TECHNICAL SKILLS

Software & Productivity Tools

- **Microsoft Copilot**
- **ChatGPT**
- **Microsoft Office Suite:** Word, Excel, PowerPoint, OneNote
- **Google Workspace**
- **Cloudflare** (web performance & security)

Development Tools & Languages

- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Backend & Databases:** Java 12, MySQL, MongoDB, Arduino
- **Version Control & Deployment:** GitHub, Firebase
- **IDE & Editors:** Visual Studio Code, IntelliJ IDEA, PyCharm
